**Subject:** Follow up on Family Housing

Dear Family Housing Residents:

We understand and have heard the concerns expressed by both students and faculty related to the approved sale of the Colonial Terrace property near east campus. This property has not been marketed or sold yet, nor have final plans been approved for the future use of our other family housing properties.

We will pause further action until we can develop a plan to minimize impact to current residents in each of the university's family housing properties. We pledge to include residents as well as faculty, the dean of graduate studies, the associate vice chancellor for global affairs and representatives of GSA and ASUN in planning next steps.

We truly apologize for any distress our messaging may have caused you and your family. We will strive to do better in the future.

Best wishes,

Katherine S. Ankerson  
Executive Vice Chancellor

Laurie Bellows  
Vice Chancellor for Student Affairs
